## About

This is a tool that I created to help me learn the words, phrases, and conjugations phrases from my Korean class.

You can change this project to use it for vocabulary-heavy classes. Learn more about doing so at the [GitHub page](#), or just check out the code that runs this.

## Some grammar point

This is some kind of text that will be in the lesson. This is some dummy text.

The lesson would look better than this, probably. And it'd probably be more substantial too.
